Aug-23	5.456%
Sep-23	5.510%
Net Asset Value (NAV)	\$ 1.00
Daily Liquidity Ratio	29.5%
Weekly Liquidity Ratio	34.7%

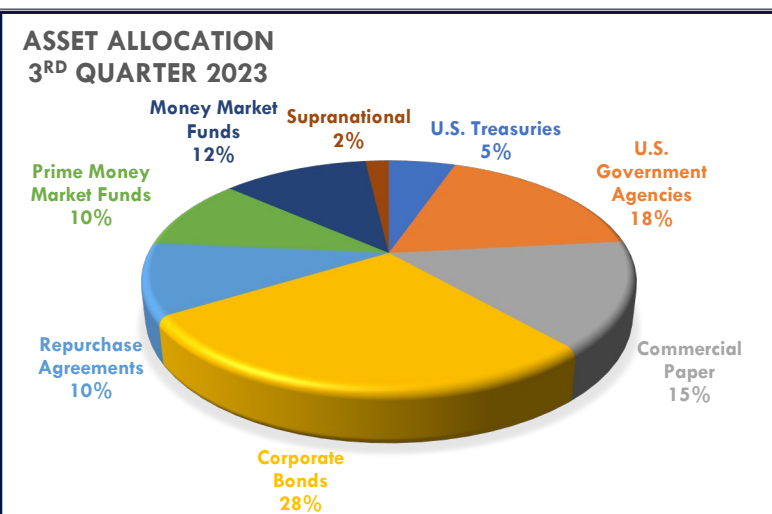

Analytical Comment

According to the [Vice-Chair of Federal Reserve](#), holding constant for any external shocks, inflation over the next 3 years is projected to fall back to approximately 2.0%. Unemployment and personal income rates have not appeared to vary widely over the last several months. Increased friction between labor and management in several industries that has significant exposure in Illinois (actors, auto workers) leave questions as to where the state's economy will end over the next six months.

The Illinois Funds closed the quarter with \$18.75 billion in net assets for the quarter. The monthly net yield (less expenses) over the previous three months was 5.427%, bringing in \$265 million in quarterly net income to Fund participants, and over \$700 million in net income for the first nine months of 2023—well over the \$124 million in net income brought in for the same nine-month period in 2022.

As always, we will be monitoring economic conditions and adjusting accordingly to ensure portfolio safety and liquidity.

Thomas Gary
Director, The Illinois Funds

Quarterly Portfolio Performance			
	3Q2023	2Q2023	3Q2022

US Treasuries	5.20%
Government Agencies	5.16%
Supranationals	5.03%
Commercial Paper	5.46%
Corporate Bonds	5.68%
Portfolio	5.51%

Investment Objective

The primary objective in the investment of **The Illinois Funds** is to ensure the **safety of principal** for Participants. In addition, the Treasurer aims to **manage liquidity** for payment of the State's financial obligations and provide the **highest return on investment**, using authorized instruments, while prudently exercising **sustainable stewardship** in its investment decision-making.

Authorized Investments

The Treasurer's investments are subject to the parameters as set forth in the **Deposit of State Moneys Act (15 ILCS 520/22.5)** and the **Public Funds Investment Act (30 ILCS 235/2)**, along with measures of fund rating quality and ability to maintain value, as assessed by Nationally Recognized Statistical Ratings Organizations (NRSRO).

Asset Classes

Certificates of Deposit	Federally insured savings account that has a fixed interest rate and fixed date of withdrawal. FDIC insured
Commercial Paper	Bonds issued by Fortune 500 and AAA-rated companies; maturities range from 2-270 days. Backed by issuing bank line of credit.
Corporate Bonds	Debt issued by corporation, promising to pay bond-holder stated rate of interest up to maturity date (can extend past 270 days)
Floating Rate Notes	Debt (note) with a variable interest rate; adjustments usually happened every six months.
Governmental Agencies	Debt issued by US Government agencies. No US government guarantee
Money Market Funds	Open-ended mutual fund regulated by SEC Rule 2a-7. Invest in high-quality, short-term investments; pays MM rates of distributions
Prime Money Market Funds	Can sometimes achieve higher yields than MMF because of broader portfolio diversity.
Repurchase Agreements	Overnight lending agreement between seller and buyer, where seller buys back collateralized money, with interest.
Supranationals	Debt issued by International agencies (World Bank, EBRD, etc.), for purposes of economic development. Guaranteed by US Govt
US Treasuries	Debt issued by US Treasury Dept. Maximum holding period is 365 days. Guaranteed by full faith and credit of US Government

Fund Glossary

Net Asset Value (NAV)	Price per share (unit). Stable-value NAV funds should be within 0.5% of \$1.00
Net Portfolio Assets	Value of all securities held by fund
Present Market Value	Value of all securities held by fund, controlling on market factors
