

Incentives Investigation

Below are types of economic incentives involving money. Decide if you want to focus on either positive or negative incentives for this investigation. After deciding, find an example of each type (either positive or negative) within your community, within your state, within the United States, and within the world.

Positive Incentives	Negative Incentives
Encourage you	Bribe you
Persuade you	Punish you
Convince you	Penalize you
Influence you	

Type of incentive for the investigation: _____

Community	
State	
United States	
World	

Analyze findings from your investigation. Are there any similarities or differences? What are they?

Based on your investigation, which type of incentive do you think is more common? Why do you think that is?
