

Median Weekly Earnings of Full Time Employees 25 & Older, 2018

Average Unemployment Rate 2018 (Percent)

1. Analyze the first graph. What relationship does this show? Were you surprised by any of the data?
2. Analyze the second graph. What relationship does this show? Why do you think it's harder for people who haven't graduated high school to find a job?
3. Provide a two sentence summary of these graphs and how they relate to each other.
4. Often, people refer to the "cycle of poverty." How do these graphs show an aspect of that cycle? Do you have any opinions or ideas on how we, as a society, can fix this?
