State Treasurer Michael Frerichs Pushes to Reunite Quad Cities Residents with Unclaimed Property

*\$90 million in Quad Cities-Area Counties
Waiting to be Claimed Through I-Cash*

ROCK ISLAND – Illinois Treasurer Michael Frerichs is looking to reunite hundreds of thousands of **Quad Cities-area residents with nearly \$90 million** in unclaimed cash and property.

The money is waiting to be claimed under the office’s I-Cash program, which safeguards unpaid life insurance benefits, forgotten bank accounts and unused rebate cards until they can be returned to their rightful owner.

“It’s often a surprise for people to find out they have an overlooked investment account or final paycheck through no fault of their own,” Frerichs said. “This money and property belong to the people of Illinois. It should be in their pocketbook rather than the state’s safe.”

Frerichs’ reminder is part of a statewide digital media, newspaper and direct mail push to reunite residents with more than \$3.5 billion in unclaimed property. State law requires the Illinois Treasurer’s Office to publish newspaper ads in all 102 Illinois counties every six months and to send letters to residents who have newly reported unclaimed property of \$100 or more.

Here are the unclaimed property totals for Quad Cities-area counties:

*In **Rock Island County**, there are more than 219,320 unclaimed properties totaling more than \$51.5 million.

*In **Jo Daviess County**, there are more than 25,200 unclaimed properties totaling more than \$1 million.

*In **Carroll County**, there are more than 18,550 unclaimed properties totaling nearly \$488,000.

*In **Whiteside County**, there are nearly 75,000 unclaimed properties totaling nearly \$7 million.

-MORE-

*In **Bureau County**, there are more than 41,240 unclaimed properties totaling more than \$1.3 million.

*In **Henry County**, there are more than 57,100 unclaimed properties totaling more than \$2.5 million.

*In **Mercer County**, there are more than 19,220 unclaimed properties totaling more than \$1.2 million.

*In **Knox County**, there are more than 68,430 unclaimed properties totaling nearly \$24 million.

*In **Stark County**, there are more than 7,500 unclaimed properties totaling more than \$111,000.

*In **Warren County**, there are nearly 20,540 unclaimed properties totaling more than \$614,000.

*In **Henderson County**, there are nearly 8,000 unclaimed properties totaling more than \$166,000.

An estimated one-in-four adults in Illinois who search I-Cash find unclaimed property, and the average claim is \$1,000. Treasurer Frerichs has returned a record more than \$1.6 billion in unclaimed property through more than 1.3 million claims during his tenure after he prioritized changes in technology, efficiency and state law to streamline the process.

Thousands of items are reported and remitted to the state annually, and residents are encouraged to check the unclaimed property database twice each year. Set up a reminder on your smart phone's calendar or fire up your computer and do a search when you change your smoke detector batteries every six months. Visit www.illinoistreasurer.gov/ICASH to enter your name and find out if unclaimed property is waiting for you.

About the Illinois Treasurer

As Illinois State Treasurer, Michael Frerichs is the state's Chief Investment and Banking Officer and actively manages approximately \$52 billion. The portfolio includes \$26 billion in state funds, \$17 billion in retirement and college savings plans and \$9 billion on behalf of local and state governments. Frerichs' office protects consumers by safeguarding more than \$3.5 billion in unclaimed property, encouraging savings plans for college or trade school, increasing financial education among all ages, assisting people with disabilities to save without losing government benefits, and removing barriers to a secure retirement. The Treasurer's Office predates Illinois incorporation in 1818. Voters in 1848 chose to make it an elected office.
