

The ILLINOIS Funds

Dear Illinois Funds Participant,

We are pleased to announce **The Illinois Funds** now offers digital enrollment and change of information forms through DocuSign. This secure web-based service removes the cost and processing delays caused by mailing physical forms. Going forward, authorized signers can make the following changes to existing Illinois Funds accounts using DocuSign:

- Principal authority changes
- Authorized signer changes
- Authorized trader changes
- Automatic Investment Plan and Systematic Withdrawal Plan changes

Starting **November 1, 2021**, an authorized signer can start a change application by **calling 1-800-947-8479** to verify their identity and start an online application. An e-mail will be sent to every authorized signer and authorized trader listed on the application so they can verify their identity and provide a digital signature. Explicit instructions can be found on our [website](#).

Bank changes will still be processed via physical application mailed directly to US Bank Fund Services. The new bank change form can be found [here](#). Changes in your local bank still require a signature guarantee to be completed.

If you need to open a new account, you can contact us directly at illinoisfunds@illinoistreasurer.gov and we will start the new enrollment DocuSign process.

If you have any questions, please call 1-800-947-8479 or e-mail us at illinoisfunds@illinoistreasurer.gov.

Thank you,

The Illinois Funds Team
