The Illinois Funds operates in a manner consistent with Securities and Exchange Commission Rule 2a-7 (17 CFR § 270.2a-7).

The Treasurer has formed and regularly convenes the Investment Policy Committee. The Investment Policy Committee is chaired by the Treasurer and include the following members of the Treasurer’s staff: Chief of Staff, Chief Financial Products Officer, Chief Banking Officer, Chief Fiscal Officer, Chief Investment Officer, Chief Legislative and Policy Officer, General Counsel, Director of State Investments, Director of State Banking, Director of Investment Analysis and Due Diligence, Director of Fiscal Operations, Director of Illinois Public Treasurer’s Investment Pool (“IPTIP”) Investments, Director of ePAY and The Illinois Funds, Director of Portfolio and Risk Analytics, Director of Corporate Engagement & Investment Operations, State Investments - Portfolio Management Officer, and anyone else deemed appropriate by the Treasurer.

The Chief Banking Officer, Chief Fiscal Officer and Chief Investment Officer, who bear responsibility for the administration, planning, development, and implementation of all financial and investment strategies per the direction of the Treasurer, shall assist the Treasurer in executing the duties and activities of the Investment Policy Committee.

3.0 OBJECTIVE

The primary objective in the investment of The Illinois Funds is to ensure the safety of principal. In addition, the Treasurer aims to manage liquidity for payment of the State’s financial obligations and provide the highest return on investment, using authorized instruments, while prudently exercising sustainable stewardship in its investment decision-making.

3.1 SAFETY

The Illinois Funds’ investments shall be undertaken in a manner that seeks to ensure the preservation of The Illinois Funds’ principal. The safety of principal is the foremost objective of the investment program. To obtain this objective, diversification among permissible investments is required to ensure that The Illinois Funds properly manages market, operational, reputational, financial, legal, sustainability, interest rate, and credit risks.

3.2 LIQUIDITY

The investment portfolio shall remain sufficiently liquid to enable The Illinois Funds to meet all participant redemption demands that might be reasonably anticipated.

3.3 RETURN ON INVESTMENT

The investment portfolio shall be designed to obtain the highest available risk-adjusted return. The Treasurer shall seek to obtain the highest available return, using authorized investments during budgetary and economic cycles as required by this Policy.

The rate of return achieved on The Illinois Funds shall be measured at regular intervals against relevant industry benchmarks that the Investment Policy Committee established to determine investment decision effectiveness meeting investment goals. The benchmarks shall be reviewed a minimum of every two (2) years to ensure accuracy and relevance.

3.4 SUSTAINABILITY

The Treasurer seeks to invest all funds under its control in a manner that provides the highest risk-adjusted investment return using authorized instruments. Pursuant to the Illinois Sustainable Investing Act (30 ILCS 238/1 et seq.), the Treasurer shall prudently integrate sustainability factors into its investment decision-making, investment analysis, portfolio construction, risk management, due diligence, and investment ownership “to maximize anticipated financial returns, minimize projected risk, more effectively execute its fiduciary duty, and contribute to a more just, accountable and sustainable State of Illinois.” 30 ILCS 238/5(b). As such, consistent with achieving the Treasurer’s foremost investment objectives set forth herein, the Treasurer and its agents shall prudently integrate sustainability factors into its investment processes.

The sustainability analysis adds an additional layer of rigor to the fundamental analytical approach and helps assess the reliability of future cash flows and debt repayments. Similar to financial accounting, sustainability analysis has both confirmatory and predictive value, and thus can be used to evaluate past performance, future planning, and decision-making. As a complement to financial accounting, sustainability analysis provides a more complete view of an investment fund or the portfolio company’s performance on material factors likely to impact either the investment fund or the portfolio company’s performance long-term value.

Sustainability factors that may have an adverse or positive financial impact on investment performance may include, but are not limited to, the following:

- a) Corporate governance and leadership factors, such as the independence of corporate boards and auditors, the expertise and competence of corporate boards and executives, systemic risk management practices, executive compensation structures, transparency and reporting, leadership diversity, regulatory and legal compliance, shareholder rights, and ethical conduct.
- b) Environmental factors such as greenhouse gas emissions, air quality, energy management, water and wastewater management, waste and hazardous materials management, management of plastics and forever chemicals, and ecological impacts.
- c) Social capital factors such as customers, local communities, the public, and/or government, social capital factors, which may include, but are not limited to, human rights, customer welfare, data privacy, cyber security, access and affordability, selling practices and product labeling, community reinvestment, and community relations.
- d) Human capital factors such as labor practices, responsible contractor and

responsible bidder policies, employee health and safety, employee engagement, diversity and inclusion, and incentives and compensation.

- e) Business model and innovation factors such as supply chain management, materials sourcing and efficiency, business model resilience, product design and life cycle management, and physical impacts of climate change.

The Treasurer shall develop policy guidelines for internal and external investment managers to integrate material sustainability risks with respect to their investment decision-making regarding financial products, investment funds, companies, and public agency or governmental unit to the extent the Treasurer is responsible for the investment performance of such entities. The policy guidelines for such investment managers for integrating sustainability factors shall be reviewed and updated a minimum of every two (2) years to ensure responsiveness to changing economic conditions and related factors.

4.0 ETHICS AND CONFLICTS OF INTEREST

The investment staff executing the investments (“Authorized Investment Officers”) and employees in policy-making positions for The Illinois Funds shall refrain from engaging in personal business activity that could (a) conflict, or give the appearance of a conflict, with proper execution of the investment program or (b) impair their ability to make impartial investment decisions. Such individuals shall disclose to the Treasurer any material financial interests in financial institutions or broker/dealers that conduct business within the State. They shall further disclose any personal investments that are related to the performance of The Illinois Funds’. In addition, such individuals shall subordinate their personal investment transactions to those of The Illinois Funds, particularly with regard to the time of purchases and sales.

5.0 AUTHORIZED BROKERS/DEALERS AND FINANCIAL INSTITUTIONS

Authorized Investment Officers shall utilize the Treasurer's approved list of broker/dealers and financial institutions when selecting institutions to provide investment services.

The approved broker/dealers may include "primary" dealers or regional dealers that qualify under Securities and Exchange Commission Rule 17 CFR § 240.15C3-1 (Net Capital Requirements for Brokers or Dealers).

If the financial institution has not yet been rated by the bank rating services, the institution may be eligible for a deposit that at maturity will not exceed \$250,000. The amount and duration of deposits shall be based on the safety and soundness review, in accordance with guidelines established by the Investment Policy Committee and the diversification limits set forth in Section 11.0 of this Policy. No public deposit may be made, except in a qualified state depository in accordance with the Deposit of State Moneys Act (15 ILCS 520/1 et seq.).

All brokers/dealers interested in becoming qualified parties for investment transactions must supply the Treasurer's Authorized Investment Officers any documents requested by the Treasurer, including but not limited to the following:

Beginning with fiscal year 2019, and at least annually thereafter, the Treasurer shall measure and report its utilization of broker/dealers owned or under the control of MWVD Persons. The report shall be published on the Treasurer's official website.

The terms "minority person", "woman", "person with a disability", "minority-owned business", "women-owned business", "business owned by a person with a disability", and "control" have the meanings provided in Section 1 of the Business Enterprise for Minorities, Women, and Persons with Disabilities Act (30 ILCS 575/1 et seq.). The Treasurer shall establish a process by which said specially claimed statuses are verified, and a review shall be conducted at fixed intervals to ensure that special statuses continue to apply.

5.3 PREFERENCE FOR BROKER/DEALERS HEADQUARTERED IN ILLINOIS

The Treasurer shall seek to provide preference to qualified brokers/dealers that provide proof that their corporate headquarters is located in the State of Illinois.
