

SHORTENING THE LINE

THE INTERACTIVE SELF-SERVICE ALTERNATIVE

JetPay's Kiosk Solution is simple, interactive Touch and Pay system for high traffic environments. User can make payments via credit card, debit card or e-check that are fast and secure, as well as lookup detailed information about their account.

The unit has a 22" touch screen with an on-board virtual keyboard and available commercial ports allow for connecting other devices such as POS peripherals and receipt printers, all you need is power and an internet connection. Our Kiosk Solution will shorten the line and provide a great payment experience for your customers.
